Mr. Brooks has over 20 years of experience in the technology arena with a proven track record of proactive and decisive leadership, needs and process assessment, team building and mentoring, data and information management, content analytics and mining, workflow and process design, cost & budget optimization, ultimately resulting in revenue growth and profitability. He also brings a strong team first approach and client relationship practices to ensure all project initiatives deliver value added services to our demanding marketplace.

Mr. Brooks is responsible for delivery of effective and efficient technological solutions to DC clients. He will also coordinate with the Partner director and Diversity Partners to understand their processes and products, to maximize output while reducing costs, and create cross company integrated deliverables for clients.

Mr. Brooks has been involved in the management of data and technical solutions for a vast array of clients around the world, which has allowed him to interact with data from all platforms, systems, and environments.

Mr. Brooks has also received formal education and training as a Pastor, having served in that capacity for almost 6 years. In that servant leadership role, he has honed his communication skills which require more effective listening than talking. In that capacity, he also earned distinctions as a Chaplain and an effective marriage counselor.
