

TPCGResearch (TPCG-R) specializes in helping a wide variety of firms with their everyday requirements of research, analysis and data. For these firms, TPCG-R model mimics the benefits of having an internal research team, at the price of a freelancer: TPCG-R offers the flexibility & cost-effectiveness of a freelance team, while providing the control & continuity of an internal team.

FULL COMPLIMENT OF DATA SOURCES

The biggest limitation for many businesses is that they don't always have a dedicated team to scale up and tap into potential business opportunities. TPCGResearch solves this problem by providing the surge capacity to optimize project deliveries. We have a wide spectrum of capabilities and access to proprietary databases. TPCGResearch solves this problem by providing these services to optimize project deliveries.

TPCGResearch fills the gap between a full-time researcher and a freelancer, bringing out the best of both worlds. We offer the dedicated, professional and scalable research support that you expect from a full-timer, but at the cost and flexibility of a freelancer. Whether it's a small research task, or an extensive research project spread over months, TPCGResearch's unique work model is the ideal solution. TPCGResearch has industry specific business researchers that enable your in-house marketing team to focus more on insights, innovating strategies, and on executing attainable action plans. We help you learn more about

the requirements and preferences of your clients, competitors, and market industries and let you focus on your core business.

HIGHLY SKILLED TEAM AT YOUR SERVICE

TPCG has an extensive track record working with large organizations as well as mid-market firms to develop strategy, expand revenue and execute programs.

Increased Focus - Companies can stick to their core business activities while our TPCGResearch team handles your time-consuming Business Research tasks. Control Costs - We can effectively minimize your costs while maximizing value. Plenty of opportunities will arise from having more people working for you at a lower cost than hiring them yourself. Industry Expertise - TPCGResearch has up-to-date knowledge tools for research and analysis. Market Research involves a lot of advanced technology

for faster and extensive data acquisition, providing your company with the highest quality information in the market today. Balance - Our vetted team are experienced professionals that help you with your fluctuating research needs. You won't have to worry about ramping up in hiring or having enough business for your current research teams.
